A screenshot of the SketchList 3D user account management page. The page is divided into two main sections. The left section contains account management options: "My Account", "My Products", and "You want to make change". Below this are fields for "Phone Number" and "Receive Build Update" (checked), an "Update Account" button, "Change Email" (with "New Email" field and "Change Email" button), and "Change Password" (with "Current Password", "New Password", and "Repeat Password" fields, and "Change Password" button). The right section is titled "My Products" and contains a list of products with "Download" buttons. The products listed are: SketchList 3D V3 - Mac, SketchList 3D V3 - Windows, SketchList 3D V3 - Mac, SketchList 3D V3 - Windows, SketchList 3D V3 - Mac, SketchList 3D V3 - Windows, SketchList 3D V3 - Mac, and SketchList 3D V3 - Windows.

## How to move my projects?

- Under the file menu item select export.
- Pick the project or projects you want to move and export them.
- On the other computer pick import project.
- Select the db3 file with the project you want to import.
- Import.
- If anything goes wrong – you can always do a file restore action to bring back the projects.
